

JOSHUA NATHANIEL P. ABELLA

IT Staff | Junior Developer

Indang, Cavite | joshuaabellajobs@gmail.com | +63 9652756404

PROFESSIONAL SUMMARY

Highly motivated Computer Science graduate with practical experience in mobile, desktop, and full-stack application development. Skilled in developing software solutions using Flutter, Python, PHP, MySQL, Java, and C/C#. Recognized with the Best Thesis Award for developing an Intelligent Multi-Language Code Application utilizing image recognition. Completed a professional internship with the Department of Information and Communications Technology (DICT), where I contributed to software development and database management. Passionate about building efficient, scalable, and user-friendly applications while continuously expanding my technical knowledge and problem-solving abilities.

PROFESSIONAL EXPERIENCE

Student Intern

Department of Information and Communications Technology (DICT), Cavite
2024

- Developed an Event Scheduler and Project Tracker using Flutter, PHP, and MySQL.
- Collaborated with the development team to improve departmental workflow.
- Designed and maintained relational databases.
- Assisted in application testing and debugging.
- Ensured data integrity through database management and validation.
- Participated in feature implementation and software maintenance.

TECHNICAL PROJECTS

Intelligent Multi-Language Code Application (Best Thesis)

- Designed and developed an application capable of translating flowcharts and pseudocode using image recognition.
- Implemented image processing concepts to improve translation accuracy.
- Recognized with the Best Thesis Award for innovation and technical excellence.

Customer Relationship Management (CRM) System

- Developed a desktop-based Customer Relationship Management system using Python and MySQL.
- Implemented customer management, sales monitoring, reporting, role-based access control, and database integration.
- Applied the Model-View-Controller (MVC) software architecture for maintainability and scalability.

Event Scheduler and Project Tracker

- Built a full-stack scheduling and project tracking system using Flutter, PHP, and MySQL.
- Designed to improve project monitoring, scheduling, and workflow efficiency.

Library Management System

- Developed a Flutter-based mobile application for managing library resources.
- Implemented user account management, book inventory, and borrowing functionalities.

EDUCATION

- Bachelor of Science in Computer Science
- City College of Tagaytay
- 2021 – 2025
- Technical-Vocational-Livelihood Strand
- Computer Programming
- Philippine Christian University
- 2016 – 2018

ACHIEVEMENTS

- Best Thesis Award – City College of Tagaytay
- Test of Practical Competency in IT (Level II Passer)
